Md Gulam Nabi

Software Developer

✉ im.gulamnabi@gmail.com ☎ +91 9102846056 🌐 *linkedin.com/in/md-gulam-nabi-22071998*

I am a Solution-oriented Computer Scientist with a wide variety of professional experience working across all software development phase. Adept in identifying and solving complex computer system and software issues. I look forward for an organization that could help in exploring my skills. I am looking for better opportunity that would bring out the best of my potential.

Experience and Projects

● **ARGUS SYSTEM**   *JUL 2021- PRESENT*

Playback Health
- Backend Development using Express Server in Node Js and Development of api.
- Implemented various functionalities like Authorization and Authentication.
- Typescript and ES6 implementation.
- Postman and Swagger Documentation and debugging.
- Payment gateway implementation and Mongodb database Integration.

Grorapid
- Node Js based Architecture.
- Email Sending and server creation.
- Encrypted data and Cryptography using Node js.
- Integrated testing implementation.
- Development of api automation Test Scripts using Rest Assured.

Ayurvedicaura
- E-commerce website using Node Js, Express.
- Unit test using jest and integration testing using superset.
- Authentication and Authorization and Multiple payment gateway implementation.
- Used Mongodb Atlas for the database.

Ru Loans
- Backend Architecture Development in Node js.
- Understanding the business requirements, Preparing test scenarios, development of api.
- CI/CD Integration.
- Creating Schema for Mongodb Database.

● **CONSULTANT/FREELANCER**   *AUG 2020- MAY 2021*
- Worked individually to conceptualize the frontend design for website development.
- Created web pages for many events in my college.
- Developed a food supply store in Jalandhar.

Education

● **Lovely Professional University**   *JUL 2017- MAY 2021*
- Bachelor of Technology in Computer Science and Engineering
- Minor: Machine Learning and Artificial Intelligence

● **Pepcoding**   *JUN 2021- NOV 2021*
- Learning Data Structure & Algorithm
- UI/UX Design, Web Development using MongoDB, Express, React & Node Js.

Technical Skills

- Programming Languages- C, C++, Java, Python.
- Frontend- HTML, CSS, JavaScript, Bootstrap, jQuery & React Basic
- Backend-Node, Express, JSON web tokens,
- Database- Mongodb, MySql.
- CI/CD.
- Git
- Building RESTful API and performing CRUD Operations.
- Authentication and Authorization.
- Handling and Logging Errors.
- Unit Testing & Integration Testing using superset, jest, mocha etc.
- Deployment- Heroku.

Skills

- Application Design
- Coding
- Security System
- Communication Skill

- Problem-solving
- Creativity
- Time Management
- Eye for Detail

Extra Curriculum & Activities

Problem Solving   *2021| Online*

- This Pepcoding skill development course is a standardize assessment aimed at evaluating a developer's coding proficiency.

Microsoft Hackathon   *2018| Offline*

- Participated in Microsoft Hackathon organized by Microsoft India at Lovely Professional University Jalandhar.

Publications

Research Paper *| IJARESM*

- A review: Use of Railway Management System in improving student learning published by International Journal of Scientific Research in Engineering and Management.
- Issue: April 30 2021

Strength

- Good Interpersonal communication.
- Analytical knowledge & creative skills.
- Ability to lead a team, ability to conceptualize and execute effective campaigns.
